PROJECTS

Solve Intelligence

2024/07/02 - Current

Founding Full-Stack Engineer

- <https://www.solveintelligence.com/>

BYKE

2023/05/01 - 2023/09/15

Intern

- <https://bykeltd.co.uk/>
- Made CTO-level decisions as the only developer in the startup
- Redesigned and built a modern website in just under 2 months, leading to 2x profit immediate-term and making BYKE respected among OxBridge students
- Singlehandedly founded database, back-end, and front-end
- Responsible for GDPR compliance, Stripe payments, SEO, company domains, API access control, database backups, etc

Discord Fox

2023/08/26 - Current

Owner

- <https://discordfox.com/>
- I shot for creating my own commercial product
- Learned to advertise, design aesthetic websites, along with creating creative assets such as the fox logo
- I give the user full-fledged profile customisability, and enable people to find friends that match their interests and personality
- It did not work out, but I have learned from it and want to try again

Personal Website

2022/08/22 - Current

Owner

- <https://danielsimols.net/>
- Devised design to show off my authentic self
- Set up Continuous Delivery for easy updates

SKILLS

Proficient Languages: Next.js, React, Node, Express, TypeScript, JavaScript, PostgreSQL, BASH, Python, Rust

Libraries: Tailwind, SASS, Bootstrap
